## CAREER OBJECTIVE

To leverage my business experience and analytical skills as a Business Analyst to contribute to the growth and success of my organization by implementing effective business strategies.

## PROFESSIONAL EXPERIENCE

**Organization:** Intech Corporation**,** Kalaburagi
**Designation & Duration:** Manager Operations | June'18 – Present
**Summary:** Digitized billing, streamlined operations, and implemented a customer database for faster processes, leading to decreased employee requirements saving 30k every month, and increased revenue due to customer satisfaction.

**Organization:** Joshi Industries, Kalaburagi
**Designation & Duration:** Manager | 48 months (June'18 to May'22)
**Summary:** General management including billing, labour, raw material, client management, and logistics. Helped improve product quality by testing methods and process optimization. Eventually saving 10+lakhs in raw materials.

**Organization:** Mother India | Intern, Kalaburagi
**Designation & Duration:** 12 months (March'21 to May'22)
**Summary:** Identified and implemented optimal production process decreasing the production time by 4hrs and increasing the product quality.

## INDUSTRY PROJECT(S)

**Organization:** Ed-Lightened
**Career Track Project Topic:** Business Data Visualisation
**Summary:** Used Power BI to create a sales dashboard for major KPIs.

## ACADEMIC PROJECT(S)

**Organization: Ather Energy**
**Topic:** Request for Problem (RFP) to improve customer experience (Gap analysis)
**Objective:** Employing Sentiment Analysis & Six Sigma methodologies to access customer feedback for process optimisation. *(Project in progress)*

**Topic:** Research Incubation Project on the automobile Industry
**Objective:** Sectorial Analysis for two-wheeler E.V segment. *(Project in progress)*
