AREAS OF STUDY			
Investment Banking, Mergers and Acquisition, Financial Systems and Markets, Business Valuation and Private Equity, Technical Analysis, Advanced fundamental Analysis and Portfolio Management, Corporate Finance			
LIVE PROJECT(S)			
Financial Model Development for Hindustan Unilever (HUL)- EdLightened		January 2024 – February 2024	
<ul style="list-style-type: none"> Developed a comprehensive financial model using historical data from 2020-2024 to project free cash flows and estimate the company's share price (Rs. 2500-2600). Applied advanced Excel techniques, including financial forecasting and scenario analysis, to ensure precision in projections. Provided key insights to stakeholders on the future valuation of HUL, supporting informed investment decisions. 			
Dashboard Development for Credit Card Company- EdLightened		July 2024 – August 2024	
<ul style="list-style-type: none"> Developed an interactive dashboard to visualize key metrics, including customer churn rates, credit scores segmented by age, and estimated salary. Utilized data analytics tools to enhance customer insights and improve decision-making for management. Provided actionable data-driven insights that contributed to optimizing customer retention strategies and risk assessment processes. 			
ACADEMIC PROJECT(S)			
Small Cap 100 Portfolio Analysis (Without Churning)			
<ul style="list-style-type: none"> Developed a comprehensive portfolio to track the performance of Small Cap 100 companies since 2012, ensuring a consistent dataset by excluding stock entry and exit adjustments. Performed in-depth fundamental analysis on each company, evaluating financial health, growth potential, and market positioning. Calculated cumulative returns for the portfolio and benchmarked them against the Small Cap 100 index, uncovering key trends and strategic insights to enhance long-term investment performance. 			
NSE 500 Credit Rating Analysis (ongoing)			
<ul style="list-style-type: none"> Utilizing methodologies adopted by credit rating agencies to assess the financial health of each company. Analyzing various financial ratios to derive a comprehensive understanding of the credit rating process. Aiming to identify key factors used by credit rating agencies to assign ratings to companies based on their financial performance. 			
Financial Analysis of Ramco Cements			
<ul style="list-style-type: none"> Conducted a comprehensive financial analysis of Ramco Cements, examining key financial metrics over a 10-year span from 2014 to 2023, to evaluate long-term financial trends and performance. Analyzed core financial ratios such as profitability, liquidity, and leverage to gain insights into the company's financial stability. Performed a detailed DuPont analysis to break down return on equity (ROE), assessing how operational efficiency, asset management, and financial leverage contribute to the company's overall financial health and operational performance.
