ACADEMIC PROJECT(S)			
Back-testing and creating a portfolio imitating Nifty Smallcap 100			
<ul style="list-style-type: none"> Created a sample portfolio that invested in Nifty Smallcap 100 since inception. The portfolio was adjusted with equal allocation of funds and reinvestment of dividends. Portfolio exactly imitating the churning of Index along with corporate action. Back-tested the data to understand and compare the CAGR of the fund against Nifty Smallcap 100 benchmark. 			
Mutual Fund Return Calculator			
<ul style="list-style-type: none"> To create a user-friendly Mutual Fund Calculator to help users to understand returns based on various investment scenarios. Conducted research on different mutual fund types and their return calculations to determine the required formulas. The calculator can efficiently calculate the return each mutual fund is producing and create comparison with funds-to-funds and funds-to-benchmark using various ratios like Sharpe Ratio, Sortino Ratio and Treynor Ratio.
