AREAS OF STUDY			
<ul style="list-style-type: none"> Financial Accounting and Financial Statement Analysis, Managerial Accounting, Corporate Finance, Technical Analysis, Security Analysis and Portfolio Analysis 			
ACADEMIC PROJECT(S)			
Financial Accounting and Financial Statement Analysis			
Revenue recognition, Depreciation and Inventory valuation			
<ul style="list-style-type: none"> Analyzed the financial statements of Blue Star Ltd., focusing on revenue recognition, depreciation methods, and inventory valuation to understand the company's financial health and operational efficiency. Identified the impact of accounting policy changes on profitability. The shift in depreciation policy provided immediate financial benefits, though the long-term impact on future financial periods remains uncertain, warranting continuous evaluation of its effects on financial reporting. Assessed the company's shift from the Written Down Value (WDV) method to the Straight-Line Method (SLM) for asset depreciation. This change led to reduced depreciation expenses, enhancing profitability and streamlining cost reporting. 			
Ratio Analysis			
<ul style="list-style-type: none"> Conducted a detailed ratio analysis, examining the company's liquidity, profitability, and solvency. Highlighted key strengths in operational efficiency while addressing potential risks related to high leverage and liquidity concerns. 			
Year-on Year (YoY) Basis			
<ul style="list-style-type: none"> The reduction in depreciation expenses resulted in a higher net income, positively influencing the company's financial statements and enhancing investor perception in the subsequent year. 			
Proficiency In Business Tools			
<ul style="list-style-type: none"> We have given a problem statement in which industry, or companies are lacking in certain areas. We have made a transaction, pivot table and put various excel formulas. In solution, we provided a mobile application which is made by OPENasAPP.
