Edlightened, Delhi			July 2024 - August 2024
Portfolio Optimization and Efficient Frontier Construction using Python (Industry Project)			
<ul style="list-style-type: none"> Created clusters from a dataset of 200 companies based on financial metrics such as Market Cap, Share Price, EBITDA, ROA, ROE, and P/E ratio; Developed a stock portfolio with an optimized Sharpe ratio of 1.26, an annualized return of 23.1%, and a standard deviation of 24.1%; Additionally, constructed the efficient frontier to represent the risk-return profile of the portfolio 			
ACADEMIC PROJECT(S)			
Impact of Credit Rating on Stock Returns (RFP Project)			
<ul style="list-style-type: none"> Objective: To ascertain how credit rating affects NIFTY 500 company performance and stock return. Methodology: Examine stock returns for the month prior to and follow the issuance of the credit rating in addition to the total returns for the entire period. To evaluate the effect of a credit rating change, compare the results to the Nifty returns Outcome: Ongoing project 			
Financial Management			
<ul style="list-style-type: none"> Objective: Develop a comprehensive business plan and financial model for Textile Valley Pvt. Ltd., a startup in the textile industry, to ensure financial readiness, sustainability, and strategic growth Methodology: Conducted a comprehensive market analysis using SWOT and PESTEL frameworks to evaluate the startup's position and identify strategic opportunities. Prepared key financial statements, including income statements, balance sheets, and cash flow statements, for multiple fiscal years. Calculated vital financial ratios such as the current ratio, quick ratio, and debt-to-equity ratio to assess the startup's financial health. Developed detailed budget forecasts and startup cost breakdowns for effective financial planning. Collaborated in a team to create a strategic financial toolkit and financial model to guide business decisions Outcome: Delivered a comprehensive business plan and financial toolkit that provided financial clarity and supported strategic planning, positioning the startup for informed decision-making and long-term sustainability 			
Active vs. Passive Investing			
<ul style="list-style-type: none"> Conducted an in-depth analysis comparing passive and active investment strategies over multiple quarters and years (September 07-March 24) which involved examining key performance metrics, portfolio composition, and corporate actions to evaluate the effectiveness of each strategy Provided comprehensive insights into advantages and disadvantages of both investment strategies, contributing to informed decision-making in portfolio management 			
Financial Statement and Ratio Analysis			
<ul style="list-style-type: none"> Conducted comprehensive financial ratio analysis of Oberoi Realty Ltd. for the period 2013-2024 which involved detailed examination of key financial statements, including the income statement, balance sheet, and cash flow statement, to evaluate the company's financial health and performance which provided valuable insights into the company's financial strategies and operational efficiency, aiding in investment decision-making and financial planning
